Income Tax; Standard Deduction; Low-income Household Renters;

Refundable
Food/Excise Tax
Credit; Wholesale;
Department of
Taxation Investigator
Positions;

Appropriation

RELATING TO TAXATION.
Increases the income tax standard deduction for an individual who is not married and not a surviving spouse or a head of household or an individual who is married and filing a separate return; amends income tax credit for low-income household renters; amends the refundable food/excise tax credit by amending income-based credit amounts; increases the excise tax levied on wholesale sales from 0.5 per cent to 1.0 per cent; requires the department of taxation to establish an additional five full-time permanent investigators; and appropriates funds to the department of taxation to fund the additional investigator positions.

This is an odd catch-all tax bill, full of poison pills. It does not make sense to me. Increase standard deduction for single person, increase wholesale GET to 1%, raise renter and food tax credit. Hire investigators.?
